## PROTAGONISTA NELL'EVOLUZIONE DELLA TRASPARENZA IN AMBITO ALIMENTARE

Passione, ricerca costante dell'eccellenza e uno sguardo attento alle dinamiche del mercato, proiettano Cristalpack verso sfide sempre nuove. CPK EUROPE è il nuovo progetto, iniziato nel 2019, che propone: l'ampliamento del sito produttivo piemontese e una serie di ambiziosi obiettivi da conseguire entro la fine del 2022:

- Inserimento di nuove linee produttive
- Confezionamento/palletizzazione automatizzato integrato
- Nuovo reparto divisione/laminazione
- Ampliamento aree logistiche
- Nuovo Gestionale integrato produttivo/logistico

Un investimento da parte di Cristalpack nel proprio futuro, finalizzato al raggiungimento di nuovi traguardi importanti ed all'acquisizione di nuovi settori vendita su tutto il territorio Europeo.

La perfetta logistica e le competenze professionali del personale Cristalpack potranno finalmente esaudire le richieste più diversificate provenienti dal mondo artigianale/industriale.

## PROTAGONIST IN THE EVOLUTION OF TRANSPARENCY IN THE FOOD SECTOR

*Passion, constant research for excellence and a snapshot on dynamics market, project Cristalpack towards ever-new challenges. CPK EUROPE is the new project started in 2019, which proposes the expansion of the Piedmontese production site and a series of ambitious goals to achieve until the end of 2022:*

- *Introduction of new production lines*
- *Integrated automated packaging/palletising*
- *New lamination division/department*
- *Expansion of logistics areas*
- *New integrated production/logistics management system*

*It is an investment by Cristalpack for its future, aimed to achieving new important goals and acquiring new sales areas throughout Europe.*

*The excellent organization of the logistic office and the professional skills of the staff will satisfy the most diverse requests coming from manufacturers in the craft sector/industries.*

## LA SOCIETÀ

**Cristalpack** è un'azienda giovane e dinamica specializzata nella produzione di una vasta gamma di contenitori, con un'esperienza ventennale maturata nel settore. I nostri prodotti, realizzati in molteplici materiali, sono idonei alla conservazione e all'asporto degli alimenti.

La filosofia dell'azienda si basa su alcuni principi fondamentali e irrinunciabili:

- attenta politica di rispetto dell'ambiente,
- qualità costante nei propri prodotti,
- servizio totale e rapido verso la propria clientela.

Lo staff, estremamente motivato dalla missione aziendale e determinato al raggiungimento degli obiettivi, è composto da maestranze di grande esperienza, tecnici di elevata professionalità, dirigenti capaci e dinamici.

## I PRODOTTI

I nostri contenitori hanno una vasta gamma di utilizzo e prevedono la conservazione e l'asporto degli alimenti in essi contenuti.

Sono realizzati sia con materiali vergini che riciclati rispettando le più severe normative europee in campo ambientale.

Materie prime e prodotti finiti vengono sottoposti a costanti analisi da parte di laboratori specializzati e accreditati.

## SERVIZIO

La flessibilità è un nostro punto di forza e garantisce di evadere gli ordini in maniera rapida. La qualità del servizio non è solo uno slogan, ma un plus aziendale mantenuto costante nel tempo.

## COMPETITIVITÀ D'OFFERTA

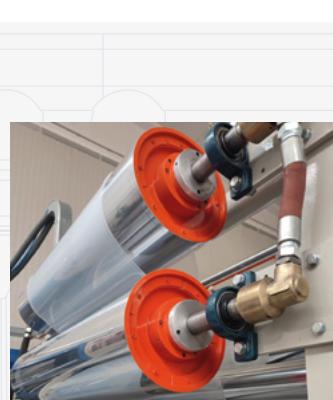

Grazie alla professionalità, all'impegno, alla determinazione dei nostri collaboratori a tutti i livelli e alle moderne linee produttive utilizzate riusciamo a garantire un ottimo rapporto qualità-prezzo.

## SOSTENIBILITÀ

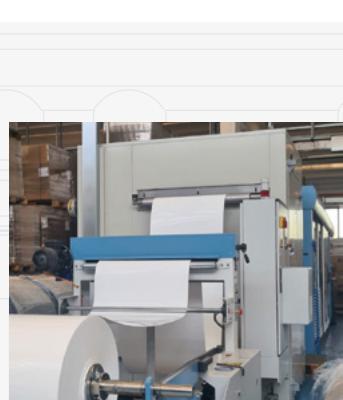

Le nuove esigenze di mercato ci hanno permesso di promuovere prodotti realizzati con materiali altamente sostenibili, riciclabili e riutilizzabili.

## THE COMPANY

**Cristalpack** is a young and dynamic company specialized in the production of a wide range of trays, with twenty years experience in the industry. Our products, made of a variety of materials, are suitable for food preservation and take-away. The company philosophy is grounded on several main and undeniable principles:

- careful environment protection policy,
- total quality products,
- fast and all-encompassing customer service.

The staff, fully motivated by the mission company and determined upon goals is composed by expert employees, highly professional technicians, skilful and proactive managers.

## THE PRODUCTS

Our trays have a wide range of uses and provide for the preservation and take-away of the food products contain them. They are made from both green and recycled materials and comply with the strictest European environmental regulations.

Raw materials and finished products are constantly analysed by specialised and accredited laboratories.

## THE SERVICE

Flexibility is one of our strengths and ensures that orders are fulfilled quickly.

Quality of service is not just a slogan; rather it is a company asset maintained over time.

## COMPETITIVENESS

Thanks to the professionalism, the commitment and the determination of our collaborators and to our technologically advanced production lines, we grant an excellent price-quality ratio.

## SUSTAINABILITY

New market requirements permitted us to promote products made from highly sustainable, recyclable and reusable materials.

# Foilpack

L'ultima novità Cristalpack è il Foilpack, un materiale ad altissime prestazioni e basso impatto ambientale

*Cristalpack latest innovation is Foilpack, an high-performance material with low environmental impact*

NEW

NOVITÀ IN ARRIVO  
COMING SOON

IDEALE PER CIBI CALDI  
*suitable for hot food*

ADATTO AL MICROONDE  
*suitable for microwave*

## LE CARATTERISTICHE PRINCIPALI DEL FOILPACK

- Foilpack: 50% polipropilene
- Materiale con densità maggiore rispetto allo standard
- Diminuendo la permeabilità all'ossigeno si ottengono risultati paragonabili ad un materiale a barriera
- Ottimo scambio termico. Il cedimento strutturale avviene ad una temperatura maggiore
- Meno energia necessaria per la produzione: 80MJ per un Kg di PP standard, contro i 30 necessari per il Foilpack
- Pertanto meno Co<sub>2</sub> immessa nell'ambiente
- Riduzione dei tempi necessari per le fasi di confezionamento: abbattimento, pasteurizzazione e sterilizzazione

## FOIL PACK

50%

PLASTIC

+

50%

MINERAL MIX

=

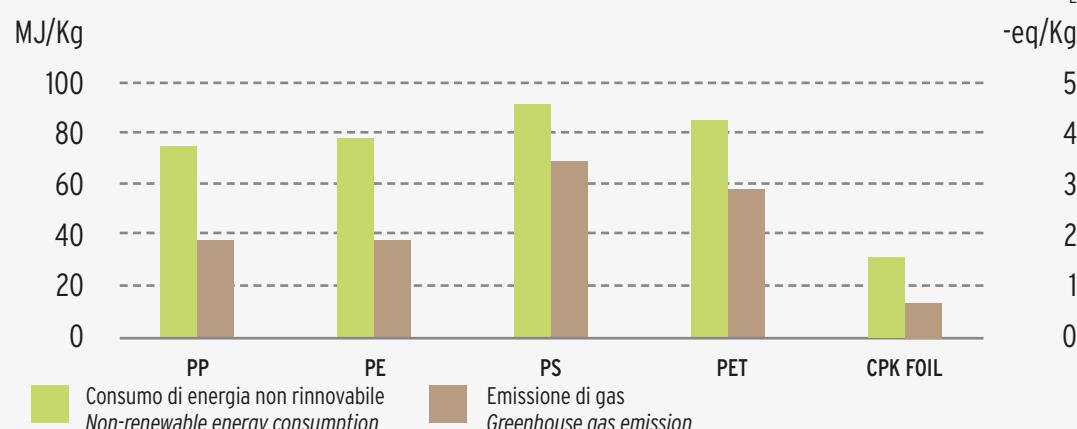

100%

ECOFRIENDLY

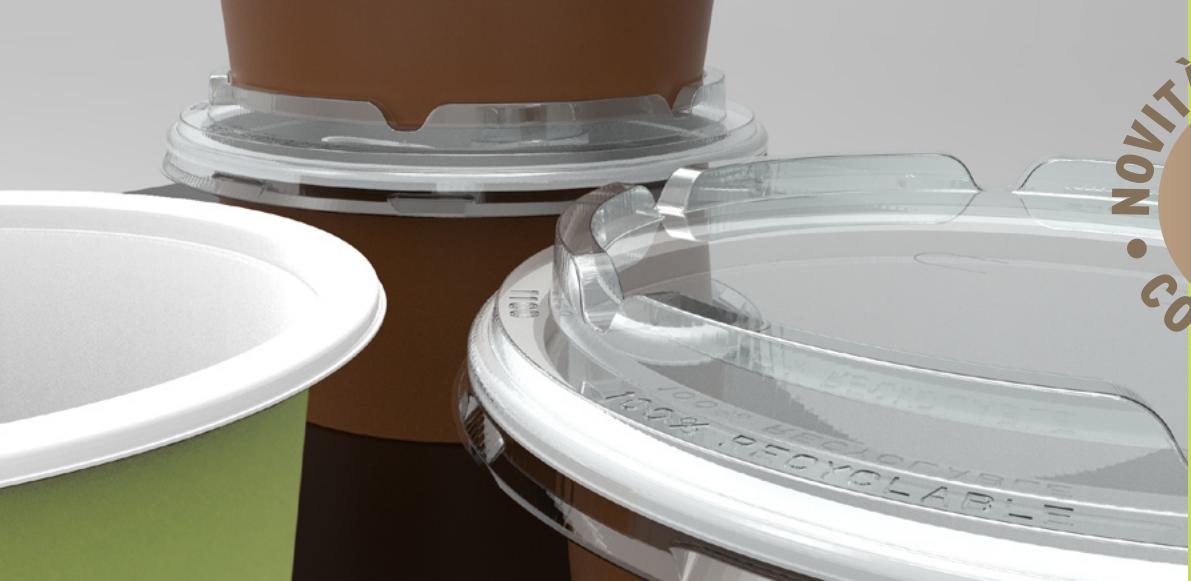

## THE MAIN CHARACTERISTICS OF FOILPACK

- Foilpack: 50% polypropylene
- Material with higher density than standard
- Decreasing the oxygen permeability gives results comparable to a barrier material
- Excellent heat exchange. Structural failure occurs at a higher temperature
- Less energy needed for production: 80MJ for one kg of standard PP, compared to 30 necessary for Foilpack
- Therefore, less Co<sub>2</sub> is released into the environment
- Reduction of the time needed for the packaging stages: blast chilling, pasteurisation and sterilisation
